1. The Group treasurer, Georgina Adams, gave a brief overview of the accounts.
Profits were made on JOTI, Halloween Party, K1.5 hike and Christmas lottery tickets.
A loss was made on Christmas Dinner dance, which needed a minimum of 90 people but only 66 booked so older Explorers and scout group leaders from Limassol were invited, who also bought lottery tickets. The Christmas camp also ran at a loss as the cost was deliberately kept low to allow all children to go.
2. The photocopier is working well after the repairs authorised on 7th December by the committee by text.
3. The Mouttayaika frame discussed previously cost EUR 2800 made from wood including the floor, as authorised on 7th December by the committee by text.
4. Video games consoles at the hut are being traded in for a better one.
5. A date needs to be set for changing the bank account signatures at the Hellenic bank.
6. Water bill - this is very high and is being investigated, the last 2 months bill showed 125m3 had been used but a leak cannot be found so far. It has been proposed to pay 50% this time.
7. Switzerland KISC emergency fund - EUR 5000 is needed. Also next year around EUR 5000 will be needed for subsidy of the World Jamboree participants in 2019, the next fundraiser will be decided at a future parents committee meeting.

Walkdown - first training will be tomorrow with the scouts, then on 19th.

15. First Aid At Work Course will be held on 25th February from 07.30-14.00 and cost EUR 20 each for Explorers/parents.
16. Mouttayaika stand alone structure - at the previous meeting it had been discussed as a metal structure to be done over the Christmas holidays, but was made from wood after authorisation from the parents committee on 7th December by text. Originally wood had been ruled out as taking a long time and being costly. Andreas looked at it again and decided he could do it with help from the group.
He worked solidly for 2 weeks from 9-4pm, with help from the older Explorers, Leaders and Parents including Peter, Taylor and Nicholas. Total cost was around EUR 2800 including the floor, estimated worth is around EUR 6000. Andreas refused to take any money for his labour. The committee unanimously agreed that Vassiliki should be subsidised for Switzerland as a thank you.
